

Golani R&P Club

Purpose & Goals:

- To promote good fellowship among members interested in shooting for sport.
- To provide opportunities for improving shooting skills through training and target practice.
- To provide opportunities to travel to shooting venues with other members.
- To provide opportunities for learning about and sampling different firearms.
- To provide opportunities for group and/or discount purchasing of supplies.
- To provide opportunities for competitive target shooting.
- To afford the opportunities stated above to Sabbath observing members events will scheduled to avoid conflicts with the Jewish Sabbath and Holydays and any meals at any events shall offer only Kosher food.

Benefits:

- Interact with other shooters – gain advice, camaraderie
- Group recognition to attract new members, gain acceptability
- Screening and peer review of safety practices of members
- Travel together to shooting venues
- Competition
- Sample firearms
- Discounts on supplies
- Group scheduling at shooting ranges
- Outings to different ranges
- Assistance in planning events and firearms training.
- **Training & mentoring for new shooters or shooters of different firearms.**
- Club Liability Insurance

Membership Application Questionnaire

Please print neatly

Name: _____

Address: _____

City: _____, State: _____, Zip: _____

Tel # : (H) _____ Daytime : _____

Email address: _____

I presently own firearm(s). _____ Yes _____ No

_____ I presently possess a valid State of NJ Firearms Purchaser ID Card issued by the _____ Police Department.

_____ I presently do not possess a valid State of NJ Firearms Purchaser Identification Card, but am willing to apply for one. (Club members can provide assistance.)

_____ I am interested in becoming a member of the Golani R&P Club.

Members do not have to personally own firearms, but must at least have firearms safety training & NJ Firearms Purchaser ID Card.

_____ I am not an experienced shooter but would like “to try it out” as a guest.

Note: The club does not own its own range. We shoot a public ranges. While these ranges are licensed and are supervised by range officers, and safety rules are observed accidents may occur (e.g. ricochets). Each shooter is responsible for his/her own safety. The club and its members shall not be liable for any injuries sustained by shooters.

Sponsored by: _____ (member)

Applicants for membership will receive a copy of the Club Constitution and rules via email. The membership chairman will contact you to process your application.

NRA Gun Safety Rules

1. Always keep the gun pointed in a safe direction.

This is the primary rule of gun safety. A safe direction means that the gun is pointed so that even if it were to go off it would not cause injury or damage. The key to this rule is to control where the muzzle or front end of the barrel is pointed at all times. Common sense dictates the safest direction, depending on different circumstances.

2. Always keep your finger off the trigger until ready to shoot.

When holding a gun, rest your finger on the trigger guard or along the side of the gun. Until you are actually ready to fire, do not touch the trigger.

3. Always keep the gun unloaded until ready to use.

Whenever you pick up a gun, immediately engage the safety device if possible, and, if the gun has a magazine, remove it before opening the action and looking into the chamber(s) which should be clear of ammunition. If you do not know how to open the action or inspect the chamber(s), leave the gun alone and get help from someone who does.

4. Know your target and what is beyond.

Be absolutely sure you have identified your target beyond any doubt. Equally important, be aware of the area beyond your target. This means observing your prospective area of fire before you shoot. Never fire in a direction in which there are people or any other potential for mishap. Think first. Shoot second.

5. Know how to use the gun safely.

Before handling a gun, learn how it operates. Know its basic parts, how to safely open and close the action and remove any ammunition from the gun or magazine. Remember, a gun's mechanical safety device is never foolproof. Nothing can ever replace safe gun handling

6. Be sure the gun is safe to operate.

Just like other tools, guns need regular maintenance to remain operable. Regular cleaning and proper storage are a part of the gun's general upkeep. If there is any question concerning a gun's ability to function, a knowledgeable gunsmith should look at it.

7. Use only the correct ammunition for your gun.

Only BBs, pellets, cartridges or shells designed for a particular gun can be fired safely in that gun. Most guns have the ammunition type stamped on the barrel. Ammunition can be identified by information printed on the box and sometimes stamped on the cartridge. Do not shoot the gun unless you know you have the proper ammunition.

8. Wear eye and ear protection as appropriate.

Guns are loud and the noise can cause hearing damage. They can also emit debris and hot gas that could cause eye injury. For these reasons, shooting glasses and hearing protectors should be worn by shooters and spectators.

9. Never use alcohol or over-the-counter, prescription or other drugs before or while shooting.

Alcohol, as well as any other substance likely to impair normal mental or physical bodily functions, must not be used before or while handling or shooting guns.

When Storing A Gun:

10. Store guns so they are not accessible to unauthorized persons.

Many factors must be considered when deciding where and how to store guns. A person's particular situation will be a major part of the consideration. Dozens of gun storage devices, as well as locking devices that attach directly to the gun, are available. However, mechanical locking devices, like the mechanical safeties built into guns, can fail and should not be used as a substitute for safe gun handling and the observance of all gun safety rules.

11..Be aware that certain types of guns and many shooting activities require additional safety precautions.

🔪 **When shooting at targets in an indoor range be aware that if a bullet strikes the target-carrier it can cause a metal fragment to ricochet back toward the shooting booths. Shooters in other lanes have been struck and injured by these fragments. Even if you are a “crack shot” make sure your target is large enough to allow room for a “miss” above the target without striking the target-carrier.**

12..Cleaning

Regular cleaning is important in order for your gun to operate correctly and safely. Taking proper care of it will also maintain its value and extend its life. Your gun should be cleaned every time that it is used. A gun brought out of prolonged storage should also be cleaned before shooting. Accumulated moisture and dirt, or solidified grease and oil, can prevent the gun from operating properly. Before cleaning your gun, make absolutely sure that it is unloaded. The gun's action should be open during the cleaning process. Also, be sure that no ammunition is present in the cleaning area.
